

RONA

The Canadian  How-To People

RONA B2B TEAM

RONA's B2B team offers solutions in conjunction with commercial sales desk at the stores, on-line help for strategic end users to capture needs on products and provide a custom quote to allow you to budget. Timelines are worked with you, to keep your project on time.

If applicable, custom orders sheets and catalogues are created to help with ease of order and budgeting.

Rona is pleased to announce the property management catalogue and custom pricing for the SACHA members. This is a catalogue of over 800 products that are commonly used in the maintenance of buildings. The pricing is aggressive with savings of 30-40 % on items and is guaranteed at any Rona in Alberta. The pricing is locked in and will not change for the year. For information on this catalogue and price sheet contact Justin Erdahl.
