WORKSHOPS: Sept. 24th

1:00 PM - 4:00 PM

1. Getting Governance Right

Why are good governance and principled leadership so vital to a successful housing co-op? Because when they are lost, we risk losing so much more; sound management, good service and fair treatment of the members, even the trust in the board's actions that is so fundamental to a healthy co-op community. When good governance breaks down it can take a long time to rebuild.

Facilitator: Janine McDonald

Janine is Coordinator of Peterborough Co-operative Homes in Peterborough, Ontario.

2. 2012 - International Year of Co-operatives

The International Year of Co-operatives is a wonderful opportunity for the housing cooperative community to celebrate, to connect with the broader Co-operative world and to dream of where housing co-ops could be going. This session will give us all the opportunity to consider how we want to take advantage of the International Year of Cooperatives in our housing co-ops, broader neighbourhoods and at a provincial level.

Facilitator: Sarah Arthurs

Sarah is the Engagement Coordinator with the Alberta Co-op Cafe, a gathering place for people, partnerships and possibilities celebrating the International Year of Co-operatives in Alberta. She is a director with First Calgary Financial Credit Union, a member of Prairie Sky Co Housing Co-operative and a director with Winston Heights Mountview Community Association. Sarah is passionate about and committed to community development and dialogue in all its forms and believes that the International Year of Co-operatives is an amazing opportunity for us to share our story as co-operatives, celebrate the good we do, and dream of possibilities for the future.

PLENARY SESSION - Sept. 25th

Sunday Morning - 2020 VISION

Now more than ever, our co-ops need a plan for a strong future. CHF Canada's 2020 Vision Program helps member co-ops plan ahead. 2020 Vision co-ops work towards completing each of the five 2020 standards. From having a mission and vision for the future, to having capital reserve and investment plans, we've got the tools to help you plan the future your community wants. We'll visit the 2020 website, find out about the Five Standards and how to achieve them.
